Computer Engineering graduate eager to apply programming knowledge, technical skills, and soft skills in a challenging environment. Seeking opportunities to contribute to innovative projects and gain hands-on experience in the tech industry.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, HTML

Developer Tools: Git, GitHub, Visual Studio, Arduino IDE

Professional Skills: Communication, Problem Solving, Teamwork, Time Management

EXPERIENCE

IT Assistant

May 2025 - June 2025

Metrics Call Services Corp.

- Assisted with agent account creation and basic IT support tasks for daily operations
- Troubleshoot agent workstation issues and performed initial diagnostics for hardware, software, and connectivity concerns
- Coordinated with IT personnel for escalated technical issues to help maintain a smooth workflow

EDUCATION

University of Cebu - Banilad Campus

Cebu City

Bachelor of Science in Computer Engineering

2022 - 2026

- Dean's Lister: Academic Year 2024-2025
- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Cisco Networking, Software Design, Digital Logic Design, Microprocessors

Bato National High School

Toledo City

Junior/Senior High School - STEM Strand

2016 - 2022

- Participated in science fair projects that strengthened analytical thinking, hands-on problem solving, and collaboration

PROJECTS

QR Code-Activated Take-Out Locker System

Academic Project

Raspberry Pi, QR Scanner, Temperature Sensors, Web Dashboard

- Developed a prototype workflow for QR code validation, locker assignment, scan-to-unlock operation, and timed unlocking
- Integrated temperature monitoring with basic heating and cooling response for temporary food and drink holding
- Supported dashboard monitoring and admin override functions during controlled prototype testing
